

The Owatonna Plaindealer.

THURSDAY, MARCH 1, 1866.

JOHNSON'S HARRANGUE.

We were deeply pained, on receiving last week a speech made by our Chief Magistrate, Andrew Johnson, to a delegation of Democrats and copperheads of Washington who called at the occasion to manifest their opposition to him for vetoing the Freedmen's Bureau Bill. Mr. Johnson, on being called by them, rose and made speech, (if such it may be called,) the most undignified of anything we have ever read, coming from a man in high position. We feel chagrined and deeply mortified that the President of the great Republic should so far lose sight of the honor of the nation as to stoop to such low and rowdy expressions as characterized the speech throughout. The nation has abundant reason to clothe him with sackcloth and ashes, and deeply mourn over this great calamity that has fallen upon it. We can but feel disgraced in the eyes of the civilized world, and then to characterize the most exalted patriots of our land with the crime of assassination, because they do not care to his views is most humiliating and inexcusable by the nation at large. We shall publish his speech entire next week, and trust our readers can judge for themselves.

THE VETO OF THE FREEDMEN'S BUREAU BILL.—The question being called for, the Chairman announced that it was: "Shall the bill be passed?" The President's objections notwithstanding? Upon which the yeas and nays were recorded by the Constitution. The vote was as follows:

Yeas—Anthony, Brown, Chandler, Clark, Conness, Cragin, Cresswell, Fessenden, Fowler, Grimes, Hurlbut, James, Johnson, Howard, Towne, Atchison, Lamont, Lincoln, Newell, Pease, Pennington, Ramsey, Morris, Sherman, Sumner, Sprague, Trumbull, Wade, Williams, Wilson, Yates—30.
Nays—Allison, Cawelti, Davis, Douglass, Durfee, French, Giddings, McRae, Morris, Nash, Nemeth, Norton, Riddle, Sanbury, Stewart, Stockton, Van Winkle, and Willey—18.

The Chair announced that the members voting in the affirmative being less than two-thirds, the bill had failed. The announcement was received with loud hisses from the colored gallery, and mingled hisses and applause from other parts of the galleries. The Chair ordered the galleries to be cleared, which was done, and the Senate, at 5 o'clock, adjourned.

The above shows the vote on the Freedmen's Bureau Bill in the Senate, after it was returned by the President. It will be seen that we may thank Basilio of Wisconsin, and D. S. Norton, of Minnesota, for the defeat of the bill, for had they been true to their former declaration of principles, and voted as their constituents desired, the bill would have become a law, without the signature of the President. Had they voted "for" the bill the vote would have stood, 32 ayes to 16 nays, which would have given a two-thirds vote, as the Constitution requires, to make it a law. Justice demands that we hold them responsible for all the misery and sorrow that may come upon the country, resulting from the necessity of such a law. It would seem just to us, and a duty the present Legislature owes their constituency, that a vote of censure be passed upon D. S. Norton, the present Senator, for voting against the bill, and proving reagent to the cause of the poor and down-trodden, and the disgrace he has brought upon the State.

FROM OUR SOMERSET CORRESPONDENT.

SOMERSET, Steele Co., Minn., Feb. 24, '66.
EDITOR P.L.A.I.N.D.E.A.L.—In your issue of Feb. 23, I notice a letter from some person, who very attackingly criticizes your paper. I emboldened to write you in reply, in the very laconic and very pointed, the very laconic manner in which elections are conducted in many places, as well as in this town. As to the charge that I am a "Copperhead," I have but to say that I fought four years to put down traitors South, and would have been glad at any time to have been called upon to put down their vile abusers, the copperheads of the North. Neither did I say one word against the present, or past officers of this town, personally, but simply wished to make their loose action public, with a view to correcting the abuse. Your correspondent charges me with a "guilty" presumption, and "negligent" conduct, without any evidence or documentary proof, and I am compelled to call the Judge of Election of "examining a vote that was known or suspected to be illegal." What I stated was, "no registry of voters was ever made in this town." He does not deny that. Without such registry every voter has been wholly null and void. "Voters are frequently challenged at the polls." He does not deny this, and this is prohibited by law. As no registry is kept on which challenges can be made, as by law, can be kept from voting. He does not deny this. "At the last election, some dispute arose about a ballot box, and the voter who held it, and then threw it away." He does not deny this. Does he know that to open the box during election, and take anything therefrom is a high criminal offence? Yet he quotes at full length a connection with Penitentiary. Your correspondent of the 13th, does not deny one fact advanced in my former letter; but simply confines himself to a wholesale derision, mixed with personal insults upon me. The freedom of speech in Congress seems to work well, and the progress is excellent, that quite a number of beneficial measures will be passed. The Amendment to the Constitution provides that whenever any State denies to any person the right of suffrage, such a race shall not be counted as a basis for representation, but, after a violent discussion, passed the House, and will doubtless pass the Senate, also, by the required majority.

INDIANAPOLIS, Ind., Feb. 20.—The news of the veto of the Freedmen's Bureau bill has caused a profound sensation. Conservative citizens heartily indorse the action of the President, and regard his arguments as unanswerable.

The light begins to break. Indiana will next fall repudiate the radicals overwhelming.

The Federal officeholders are in an unpleasant predicament.

MADISON, Wis., Feb. 20.—The Legislature is thoroughly demoralized for this week. President Johnson's veto of the crowning grief of the radicals. It is understood that the *State Journal* will continue on neutral ground. The veto is the all-absorbing topic everywhere.

The Canadian papers are publishing the negotiation proceedings showing the failure of the Canadian Commissioners to renew the reciprocity treaty. The provincial governments are very much displeased by their trade prospects for the coming year, but the government is trying to find consolation in the assumption that this reciprocity failure will have the effect of realizing the confederation scheme. The ministry are now determined to make another vigorous effort to carry this latter measure to completion, but there is a strong opposition among the people, and a bitter contest on the matter is anticipated.

—A New Haven dispatch says: The Democracy of this city are firing 36 guns in honor of President Johnson and his veto of the Freedmen's Bureau bill.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, Feb. 8, 1866.

Dr. J. H. KELLY—DEAR SIR:—For the first time since descending the steps of your office, last harvest season, we have just had the pleasure of perusing two copies of the *PLAINDEALER*; one containing the messages of Governors Miller and Norton, the other an annual report to the McClary's democratic party. We have no cause to laud the report, though if present we would gladly have encouraged the friends by account of some of the Centenary celebrations of the establishment of the Methodist Church in America, which have recently taken place in this city. One of the most important, addressed by Secretary Harlan, who was Clinton, Bishop James and Simpson, and Rev. Dr. McClary. This massive structure, conspicuously fitted up to suit the tastes of the age, is nearly as much in advance of the style of old Methodists, as Bishop Whipple's new edition of *honest stones* at Fairbank, is superior to the former log church of the Presbyterians at Mankato.

Friends of all denominations, whether at, and admire the progress of the Methodist Church, and its commencement in this country, with two old Irish emigrants in an old rigging-soft in Williams street one hundred years ago. Now they have nearly 7,000 preachers, 10,000 churches, and a membership of 925,220, beside those connected with the Paul's Methodist Church. B.—Batchelder's Block contains the Best Assortment of Goods of all kinds in the State. Exceeding 1,000 values, for the past year, the stocks of all other dealers in general merchandise in Faribault added together, (according to the tax lists of Rice County,) All kinds of goods can be found at BATCHELDER'S BLOCK, at the LOWEST PRICES, warranted to be just what they are represented, and sold very cheap for cash, on one price system. We have sold nearly a QUARTER OF A MILLION of dollar's worth of goods, at B.A. BACHELDER'S BLOCK, in the past three years. Why?

Because we keep GOOD articles and sell them CHEAP.

Because we buy cheap and contract freight cheaper than we could in small lots.

Because we sell for cash and make quick returns.

Because we sell for large amounts by bad debts.

For these reasons, and because of the great amount of our sales, we CAN, DO AND WILL sell all kinds of goods very cheap, at

BATCHELDER'S BLOCK, FARIBAULT.

10¢ TO OUR BUSINESS MEN.

We presume that you are not fully aware of one of the great causes that impels the progress of our thriving city. It is a self-evident fact, that good roads leading into a place from all directions, tends more to augment the business of a town than any one thing, and if our business men wish to extend their trade, they should not lose sight of this important object. On many of our roads the settlements are so sparse that it is impossible for them to keep the roads on which they live in a passable condition for loaded teams, consequently they are forced to other towns, if they can find a better outlet, and the business moves away from its natural center, where a few dealers bid for these roads each year to all the few farmers living on the routes, would entirely prevent such occurrences. In no case is there so much necessity for something to be done by Owatonna as on the road to Field. This town lies north and west of Crain Creek, and a better farming township does not exist in the County; yet nearly all the trade of that town, and others lying beyond Crain Creek, goes to other places besides Owatonna to do their business, and the question arises—why is this?

There is the natural point for all that scat in country, and if a good bridge was made across the Creek, it would come here and increase the business of our city many thousands of dollars. Where the bridge should be made is not more than 42 miles distant, and at the corner, or near the corner, of four towns, viz. Meriden, Clinton Falls, Doerfield and Owatonna. The citizens of Doerfield have made the offer that if Owatonna will build the bridge, that they will make the balance of the road, and put it in a suitable condition for loaded teams, at all seasons of the year. Who is the business man who is so short-sighted that he would not be willing to give five dollars to open up to this city such a large and rich section of country as lays beyond this Creek? Could he make a better investment? In three months time he would be rewarded ten-fold at least, and perhaps a hundred-fold. The cost of such a bridge won't exceed one hundred dollars, at the father's estimate, and for the want of this, our merchants are deprived of many thousands of dollars trade every year. Is this economy?

Let each business man in the City bear his proportion of the expense, and he would find it a better investment than he could reasonably expect. We have said this much because we feel a lively interest in the prosperity of our business men, and desire that they may overcome all obstacles that shall hinder the extension and enlargement of their operations. We know their magnanimity, and an appeal to them would not be vain, where they were not personally interested, and in this, you can but feel the importance of the subject. We point out this source of hindrance to your income, knowing that your time is absorbed in other matters, and have never given this a single thought. Will you each of you, as you regard your own prosperity, think and act in this matter as you may think advisable.

FIRE IN MINNEAPOLIS.

Minneapolis was visited by a destructive fire on Friday night, which swept the East side of Bridge Street from First to Second Street and left but one building, a fire-proof stone house, belonging to Vanderwarker and Hamer, on the whole block. There were thirty buildings destroyed, all frame structures.

The fire was first discovered by the policemen, at about half past ten o'clock on one of the upper shelves in J. J. Coughman's store and evidently caught from the chimney in Chase's Express Office adjoining. When first discovered it was just bursting into a flame, and a half dozen pails of water would have been sufficient to extinguish it. There was no water to be had, however, and the policemen gave the alarm and attempted to smother the flames, in this they were unsuccessful, and before help arrived the fire was beyond control, and it was evident that the whole block must go.

A strong and very cold north wind was blowing at the time, so that there was no possible chance to check the flames, and the people turned their attention chiefly to removing the goods from the buildings.

The loss cannot be less than one hundred and fifty thousand dollars. The buildings being frame and so compactly situated insurance companies had issued only light policies upon them. Everything being in such confusion it is impossible to give a correct detailed statement of the losses and insurance. The sufferers themselves are unable to give reliable figures, as with two exceptions, portions of their stocks were saved.

New Hampshire Election.

5,000 UNION MAJORITY.

Concord, N. H., March 13, '66. We have returns from a large number of towns, which indicate at least 5,000 majority for Gov. Sneath (Rep.) and it may run up to nearly 6,000, the majority of last year, whence Democrats made but little effort. The Republicans are jubilant and the opposition astonished. The Republican majority in the Legislature will be very large.

Second Despatch.—The electoral election of State officers took place to-day. The aggregate vote considerably exceeds that of last year. Returns from 53 towns give Sneath (Rep.) 14,232; Sinclair (Dem.) 14,009. The returns, thus far, indicate a majority of more than 5,000 for Sneath in the State. The Republicans have carried all the five Congressional nine of the twelve Senators, and will have about 130 majority in the House.

The Latest.—Returns from 93 cities and towns give Sneath 20,550, and Sinclair, 15,551. Democratic cast, gain, 291.

SERETARY MULLOCHE.

SERIOUS CHARGES MADE AGAINST HIM.

President Clarke, Comptroller of the Currency, has written a sharp letter to Secretary McCulloch, in which he says that the published statement of the condition of the treasury and the public debt is "inexcusably erroneous." Also that the Secretary has sold during the month without the authority of law, ten millions of bonds, and concludes: "I will add that I can show to the satisfaction of any one, that neither of your monthly reports for the last four months has been within \$5,000,000 the amount of money in the treasury or on deposit in the national depositories."

The *Commercial Advertiser* says of it: It is quite proper that the Secretary of the Treasury should understand that there is a grave disapproval among a large majority of the practical financiers of the policy of secret treasury negotiations adopted by the head of that department. Both bonds and gold are understood to be sold by a family concern.

These facts may well dispose Congress to deny to the Secretary a *carte blanche* authority for funding short obligations, and contracting the currency as proposed in the original financial bill. They show the necessity for the funding measures pending in Congress, strictly defining the policy of the Treasury Department, and limiting the discretion of

the Comptroller.

As the controversy between the Secretary of the Treasury and the Comptroller with regard to financial matters attracts much attention, it may be of interest to bear in mind that the law provides that the Comptroller shall be appointed by the President, and the Comptroller of the

Department, and the Compt
